- obtain writing skills (business documents, business correspondence, letter writing etc.)
- use the special literature (journals, information sources, Internet, etc.)

THE PROCESS OF TRAINING

In the process of training all modern audio-visual aids and computer technique are used.

- the classes are conducted only in the trained language
- free atmosphere which helps to overcome the language barrier is created.
- great attention is paid to the creation of listening comprehension and oral speech,

without ignoring grammar, reading and writing.

- an individual approach is practiced.

Classes are conducted by skillful teachers whose work is coordinated and controlled by the methodologist and the Head of the Language Centre.

The number of students in each group makes **12-15** persons. Classes begin on **October 1** and are over on May 31.

- **GROUP TRAINING** for students of different universities, school leavers, etc. (speaking, grammar, business)

ENGLISH LANGUAGE
